GB-02512 Series Ground Buss Bar Kits for Coaxial Cable Grounding Applications

1532 PR C

PRODUCT DESCRIPTION

GB-02512 Series Ground Buss Bar Kits provide a single, versatile solution to create a central ground point at your site. GB-02512 series ground buss bars are manufactured from 1/4" (6.4mm) thick solid copper and incorporate thirty-five 7/16" holes. The hole pattern will allow ground lugs to attach vertically to the bar, regardless of the buss bar being mounted horizontally or diagonally. Ground buss bar kits are available with or without attachment hardware and are also available with a tin plated finish.

TYPICAL APPLICATIONS

SPECIFICATIONS

Material:

- Buss bar solid copper
- Mounting hardware stainless steel
- Mounting brackets galvanized steel

GB-02512 GROUND BUSS BAR KITS			
Part #	Description	Weight lbs. (kg)	Kit Qty
