GB-0210 Series Ground Buss Bar Kits for Coaxial Cable Grounding Applications

1195 IB F

PRODUCT DESCRIPTION

GB-0210 Series Ground Buss Bar Kits provide a single, versatile solution to create a central ground point at your site. GB-0210 series Ground Buss Bars are manufactured from 1/4" (6.4mm) thick solid copper and incorporate ten pairs of 7/16" holes. By slotting one hole in each pair of 7/16" holes, the Ground Buss Bar accommodates any lug hole spacing from 3/4" to 1". Ground Buss Bar kits are available with or without attachment hardware and are also available with an optional tin plated finish.

REQUIRED TOOLS
