For Coaxial Cable Applications

1483 PR F

PRODUCT DESCRIPTION

The Hanger Clamp is designed specifically for wireless applications. These stackable space saving clamps provide versatility in all applications reducing material and installation costs. Hanger clamps are manufactured from a durable weather resistant Polycarbonate which exceeds the recommended temperature parameters for coaxial cable i.e. (-40° to 185° F). Thermal, chemical, and UV resistance ensure long term integrity in extreme environments including mountain tops, deserts, coastal, and industrial type applications.
