Galvanized Mounting Hardware Kits For Mini and Large Coax Support Block Applications

1052 PR F

PRODUCT DESCRIPTION

Single, Double and Triple Stack Hardware Kits provide easy and effective installation of Coax Support Blocks without requiring any additional cutting or cold galvanizing by the installer. Threaded rods and hardware included in these kits are manufactured from steel and mechanically galvanized, a process which ensures long term mechanical integrity over the life of the product in extreme environments including mountain tops, coastal and industrial applications. A complete line of support hardware can be used to facilitate installations including roof tops, parapet walls, wood poles etc.

Material List

	Item	Quantity
1	Pre-cut 3/8" threaded rods	10
2	Hex nuts	30
3	Flat washers	20
4	Lock washers	20

Note: Other sizes available, call for options.
