"Building Sustainable Innovation" - ISO 9001:2015 and ISO 14001:2015

OPERATIONAL EXCELLENCE

Our global operations compliment our overall capabilities and global footprint. Our state-of-the-art manufacturing, in-house tool and die design and extensive raw material inventories allow us to reduce cycle times and expedite deliver of sub-component and finished good product to our customers.

For detailed information on specific products, an extensive library of Product References, Installation Bulletins, and technical drawings ,are available as an additional value-added service.

WANHO, a FIMO Group Company, provides a vast array of options within each product category, allowing installers to select the component which best fits their requirements, applications, and preferences. Our products offer the unique combination of benefits in the form of cost-effectiveness, ease-of-installation, and versatility.

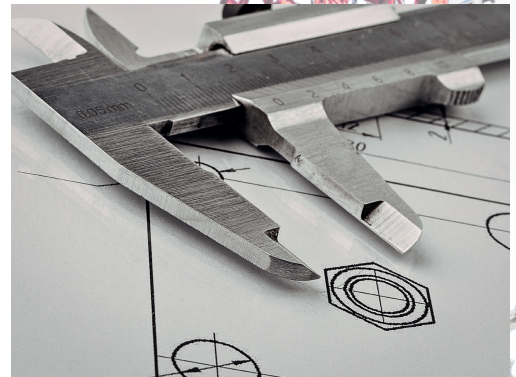

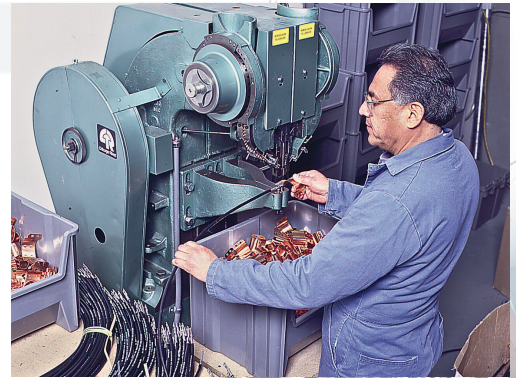

Each manufacturing location operates under stringent ISO 9001:2015 & ISO 14001:2015 quality system standards to assure compliance throughout all stages of the product life cycle.

Our in-house staff of engineers and design professionals combines uncompromised quality with efficient manufacturing techniques to extend the most cost effective product solutions to our customers.

Our manufacturing operations include automated processing, precision fabrication, and high capacity output, which combine to yield components of consistent, exceptional quality. Every product is designed and manufactured to rigorous quality standards and all metals and received with batch and heat-treatment identification allowing for 100% mill traceability. One call to WANHO/FIMO with your requirements and you can “Consider It Done”.

Manufacturing Expertise

- ▶ Delivery Commitment
- ▶ In-house Engineering
- ▶ Quality Assurance
- ▶ ISO Certification
- ▶ RoHS Compliant
- ▶ TQM & SPC Processes
- ▶ SIGMA Rating System
- ▶ Comprehensive Toll Design
- ▶ Joint Product Design Teams
- ▶ Multi-Lingual Bulletins

SERVICE AND SUPPORT

Building Sustainable Innovation

Regionally based experienced customer service teams, coupled with our knowledgeable product line and technical support personnel, are available to assist in finding the right products for any application.

Our goal is to go beyond the sale of products and provide each customer with a menu of value-added services to aide in their specific business goals. Our ability to eliminate hidden cost from your business, while enhancing your competitive position will drive continued success for both our companies, our symbol, and commitment to a true and trusted partnership. Upon request, WANHO/FIMO Group can provide specialized site kits consisting of all the components necessary for an individual site. No matter what the deadlines or requirements might be, WANHO/FIMO Group has proven the ability to respond to the strictest deadlines or requirements on a global scale. The people who design our products are industry professionals with many years of invaluable field construction experience.

It is the practical knowledge of these engineers and product managers that ensures WANHO/FIMO Group components not only meet performance specifications, but also accommodate installation and application requirements. To help identify the best solutions for your application, our technical support specialists stand ready to lend you the benefits of their knowledge and experience. These talented professionals maintain high levels of service and accessibility, guaranteeing the continued success of our customer.

- ▶ Product Line Training and Support
- ▶ CD Graphic Library
- ▶ Extended Payment Terms
- ▶ Private Labeled Product
- ▶ Kan-Ban Programs

Innovative Products... ..Worldwide Markets

"A picture says a thousand words!"

Our products transcend all industries incorporating virtually any material necessary to satisfy the unique requirements of each customer.

ISO 9001:2015
ISO 14001:2015

Each product engineered to act alone or as part of an integral system, giving the most cost effective solutions for any industry.

INNOVATIVE SOLUTIONS

WANHO/FIMO Group is a recognized leader in the manufacture of innovative products which support the continuous evolution of the wireless communications industry. For nearly three decades, WANHO/FIMO Group has cultivated exceptional engineering and a broad selection of wireless components for virtually any application. These individual items combine to provide a complete, integrated system of component products applied to build and maintain wireless systems.

Challenges & Solutions

- ▶ VMI Consignment Inventory
- ▶ Vast Experience and Knowledge
- ▶ Entrenched Partnerships with Cable OEMs
- ▶ Custom Kitting
- ▶ Custom Solutions
- ▶ Marketing Solutions
- ▶ Kan-Ban - JIT Inventory Programs
- ▶ Protected Channels to Market
- ▶ Dedicated Engineering Services
- ▶ Customer Service Support
- ▶ True In-House Global Manufacturing
- ▶ ISO, UL, RoHs Compliant Product
- ▶ Full Line of Hardware & Accessories

Markets

- ▶ Cellular/GSM
- ▶ PCS/PCN/DCS
- ▶ Paging
- ▶ SMR/ESMR
- ▶ LMDS
- ▶ Land Mobile Radio
- ▶ Wireless Local Loop
- ▶ Mobile Data
- ▶ Microwave
- ▶ OEM

WANHO/FIMO Group is the key supplier to all the major cable OEMs throughout the world and is dedicated to serving these companies which build and maintain wireless systems on a global basis. Today, WANHO/FIMO Group components are used extensively in communication systems in all corners of the world including the Americas, Europe, and Asia. From Small land mobile sites to large cellular networks, we WANHO/FIMO Group provides a complete selection of components which accommodate global system requirements.

Our exceptional design, manufacturing and distribution capabilities allow our customers to select from a comprehensive range of products and services to meet their specific requirements with seamless worldwide fulfillment. We have strategically positioned logistics partners in Europe, Asia, and the Americas, which have been integrated extensions of our global business structure. This in turn minimizes logistical cost while providing our customers with the most professional and experienced material handling and distribution services around the world. This model enhances our ability to extend localized capabilities ensuring freight and material handling costs are kept to a minimum while maximizing the value to our customers. WANHO/FIMO Group is dedicated to delivering orders safely and on-time and has a network of regional logistics centers centrally located throughout the world providing increase delivery speed, reduced freight costs, ad minimized shipping damage.
