Cushion Plugs for Standard and Rectangular Entry Ports

1279 IB E

PRODUCT DESCRIPTION

Cushion Plugs seal unused holes in cushion inserts or boot assemblies, providing environmental protection and reserving space for the addition of future coax runs. Cushion plugs are constructed from EPDM rubber providing ideal protection against extreme temperatures and harsh environmental applications.

NOTICE

Installation of this product should only be performed by trained, qualified and experienced personnel. Installation instructions for this product should be read thoroughly before installation is performed. The manufacturer and supplier of this product disclaims any liability or responsibility for the results of improper or unsafe installation practice.
