Composite Snap-in Hanger Adapter

1843 PR A

PRODUCT DESCRIPTION

Composite Snap-in Hanger Adapter is the most effective way to avoid metal to metal contact for snap-in hanger application and reduce passive intermodulation around 15 feet of antenna (high risk PIM zone). Hanger Adapter consists of a $\frac{3}{4}$ " hole for mounting snap-in hangers and can be mounted on round members using two heavy duty tie wraps (sold separately).

TYPICAL APPLICATIONS

*Patent: 10851916

SPECIFICATIONS

Product Type	Adapter
Inside Height	1.15" (29.21mm)
Outside Width	1.18" (29.97mm)
Outside Length	1.35" (34.29mm)
Packaging Quantity	10
Weight	0.33lb (0.15kg)
Material Type	Engineered plastic
Maximum Loading	Triple stack for hangers SSH series
Environmental Strength Capability	Double cable weight
Vibration Survival	≥4 hours at resonant frequency
UV Resistance, minimum with no degradation	≥1000 hours
